Hands-On Woodturning Symposium April 12th, 13th and 14th.

Bismarck Public Schools Career
Academy
1200 College Drive
Bismarck, North Dakota

The Bismarck Schools Career Center is located on the Bismarck State College campus across the street and to the south of the BSC Vo-Tech Center. It is located east of the corner of Schafer Street and College Drive.

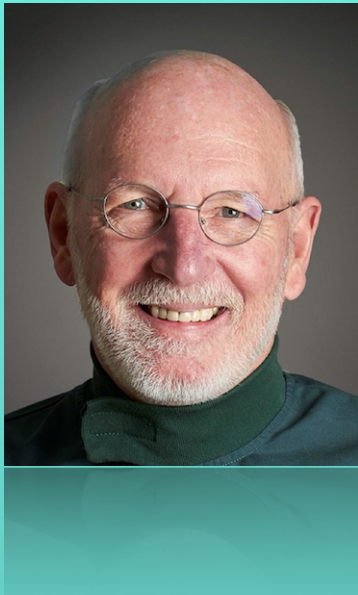

Dakota Woodturners

2019 Woodturning
Symposium
April 12th, 13th and 14th

This project is supported in part by a grant from the North Dakota Council on the Arts, which receives funding from the state legislature and the National Endowment for the Arts.

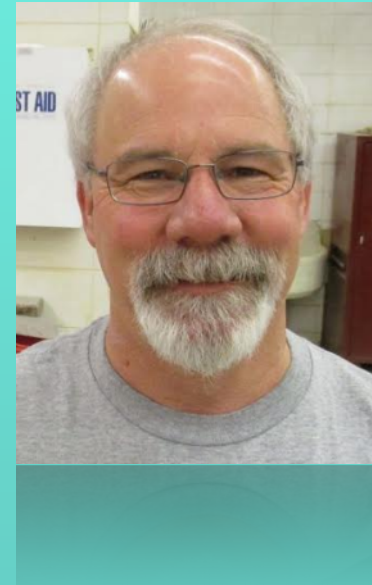

2019 Presenters

Tom Wirsing is best known for his large platters with simple, smooth lines, beautifully figured wood, and silky hand-rubbed finishes. Tom also enjoys turning bowls. As a physicist, he has had a lifelong interest in metallurgy, and enjoys teaching about tool steels and grinder technologies. Tom is a past president of the AAW. Tom also enjoys making furniture, especially tables and cabinets. Tom is an avid world traveler, having visited all 50 states, all seven of the world's continents, and about 80 countries. Tom lives with his wife Melinda on a ranch in the foothills of the Colorado Rocky Mountains.

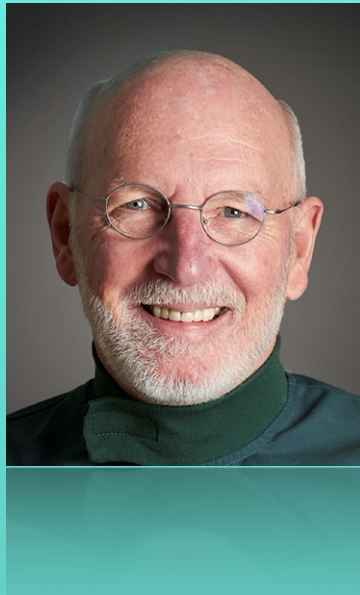

Alan Jensen started turning wood in 1994 in high school like many others have, fortunately he hit it at just the perfect time. His wood shop teacher Doug Schneider had just started turning once again and influenced him to try some new things. He attempted a few bowls, hollow forms and even stone turning in just a few months. He believes that opened his eyes to the many forms of woodturning and led to his enthusiasm for woodturning.

Robert (Spud) Grumann is a charter member of the Dakota Woodturners. He presently serves as the group's secretary and is a member of the American Association of Woodturners. He is a past treasurer of DWT. Spud enjoys helping with the woodturnings at the area schools. He has attended a national symposium to further his skills.
